PGY1 Pharmacy Practice Residency Statement of Purpose
Residents who successfully complete this 12 month PGY1 Pharmacy Practice residency will be competent to confidently provide safe, patient centered, cost-effective, pharmaceutical care across Acute and Ambulatory Care settings. This residency will provide postgraduate education for licensed pharmacists enhancing knowledge and problem solving skills in the various aspects of pharmacy practice in a community hospital setting.

Community Memorial Hospital is located northwest of Milwaukee in Menomonee Falls, Wisconsin. The hospital is part of the Froedtert Health System which is comprised of Froedtert Hospital, St. Joseph’s West Bend Hospital, West Bend Clinic and the Froedtert Health Medical Group clinics. Residents who successfully complete the Froedtert Health Community Memorial Hospital PGY1 Pharmacy Practice Residency will be able to provide integrated, safe, cost-effective, patient centered pharmaceutical care across the continuum. This residency will provide candidates with the opportunity to work as a respected member of the healthcare team.

PGY1 Pharmacy Practice Residency Rotations
Pharmacy services are provided by pharmacist teams within an integrated practice model. The team pharmacists are decentrally located and provide care as part of an interdisciplinary team through patient care rounds in the ICU; clinical monitoring and medication order review of inpatients; admission histories in ED and Home ToDay surgery; first dose teaching; participation on code blue, trauma and stroke response teams; drug information resource and medication use stewardship.

Required Rotations
- internal medicine
- critical care
- cardiology
- infectious disease
- ambulatory care
- practice management and leadership skills development

Elective learning experiences are available in general and orthopedic surgery, emergency medicine, academia, Mental Health, Inpatient Rehabilitation, pharmacy informatics, and medication safety.
